

Series of side tables available in different dimensions.

Structure: AISI 304 stainless steel matt varnished in avorio or grigio lava colour; plastic spacers.

Support surface: made of varnished aluminium in a colour matching the structure, for tables composed of more tesserae only.

Top:

- composed of majolica elements, watercoloured by hand;
- composed of majolica elements painted by hand with oxidized colours, obtained mixing powders and pigments;
- single element made of stoneware decorated by hand with large abstract designs.

The tops of the Cocci side tables are made and decorated by hand with exclusive colours by Nicolò Morales.

Notes:

The top of the 43x43 cm side table can be produced with 3.5x3.5 cm elements (B105E), 7x7 cm elements (B105F) or with a single element (B105G).

The top of the 63x63 cm side table can be produced with 7x7 cm elements (B105B) or with a single element only.

The materials, the particular handwork and the production techniques used for the tops lead to colour and design differences even in the same lot of tops.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
