Powder coated aluminium with adjustable feet

## 1.6M TABLE

EDG060  
Width: 1600 mm  
Depth: 800 mm  
Height: 740 mm

## 1.5M BENCH

EDG050  
Width: 1500 mm  
Depth: 420 mm  
Height: 430 mm

## 2M TABLE

EDG061  
Width: 2000 mm  
Depth: 1000 mm  
Height: 740 mm

## 1.8M BENCH

EDG051  
Width: 1800 mm  
Depth: 420 mm  
Height: 430 mm

**DESIGNER**  
— PEARSON LLOYD

Pearson Lloyd is an award winning industrial design and innovation consultancy based in London. The studio, founded by Luke Pearson and Tom Lloyd in 1997, offers product design services and strategic thinking in sectors that have demanding spatial, ergonomic and social needs, including the workplace, healthcare, transport and urban environments. With a history of implementing strategic change within these areas, the studio delivers real value to their clients through research-led innovation and industrial design that focuses on practical commercial solutions that are pragmatic, elegant and memorable.

The studio has worked with a range of international clients including InterContinental Hotels Group, Joseph Joseph, Lufthansa, Steelcase and Virgin Atlantic Airways. Over the years, Pearson Lloyd has won numerous awards, including the distinction of Royal Designers for Industry by The Royal Society of Arts in 2008 and in 2012 Tom and Luke were celebrated in the top 50 designers Shaping the Future by Fast-Co Magazine in New York.

## FINISHES

The finishes shown are our standard finishes, if you wish to specify any finish other than these options please contact us to discuss your requirements. Please note that colours are for reference only.

---

## WARRANTY

Pearson Lloyd Edge Outdoor carries a one year warranty. For further details please refer to our Terms and Conditions.

---

## MAINTENANCE

Keep frames clean by regularly removing dust and dirt with a soft, damp cloth. Dry thoroughly. Oiled wood surfaces can be regularly cleaned with Osmo Exterior Spray Cleaner. Regular maintenance is required to keep the wood surface looking its best, lightly sand or use a stiff brush to remove surface dirt and debris. Apply a thin maintenance coat of Osmo UV Protection Oil Extra, taking care to work the oil in to the surface of the wood and wiping off any excess.

## ENVIRONMENTAL INFORMATION

Our mission is simple, to create furniture of the highest standards in terms of design, quality and durability that enriches life today without compromising tomorrow. Our products are thoughtfully manufactured in the UK with respect for environmental limits and an understanding of the interconnectedness of a healthy economy, society and environment.

Every piece in the Pearson Lloyd Edge collection is crafted from start to finish in the UK. All joinery is carried out in our renewably powered, Somerset factory. The Pearson Lloyd Edge Outdoor collection is made using aluminium with a durable powder coat finish and FSC certified, oiled solid oak slats for the seat and table top.

## MATERIAL CONTENT\*

■ - Oak	27.00kg (66%)
■ - Aluminium	13.5kg (32%)
■ - Steel	0.2kg (<1%)
■ - Polyester	0.1kg (<1%)
■ - Nylon	0.1kg (<1%)

\*Weights and material percentages have been calculated using EDG060

## CERTIFICATION

The Pearson Lloyd Edge Outdoor range is available with FSC certification on request.

## SUSTAINABILITY

### APPROACH

We take a broad and holistic approach to sustainability, considering every aspect of a product's footprint from embodied carbon, to wider impacts on ecosystems and society. Our Sustainability Policy, which can be seen on our website, targets six key areas: reducing Co2 emissions, protecting habitats and biodiversity, making healthy products, reducing waste, minimising our plastic footprint and people positive actions. We have an ethical purchasing and a social responsibility programme that has a particular focus on the designers and makers of the future.

Our furniture is hand crafted in Somerset using 100% renewable energy. We are a Carbon Neutral Plus organisation.

Our products can help gain credits under environmental assessments such as WELL, BREEAM, LEED and SKA rating, speak to our team about your sustainability goals at [sustainability@modusfurniture.co.uk](mailto:sustainability@modusfurniture.co.uk)

### DESIGN

We take a circular approach to product design, designing furniture that lasts and can easily be repaired and disassembled for multiple lives in use. At end of life, our furniture may be taken back for remanufacture and given a new lease of life. Materials and processes are carefully considered so that we can manufacture products with the lightest footprints.

### MATERIALS

Dematerialisation is a key consideration, we aim to create the best products from the fewest resources, using renewable materials or materials that are part of a continuous loop. We rigorously design out waste and limit and avoid the use of potentially harmful substances and the creation of VOC emissions, keeping our products as healthy as possible.

We use CertiPUR certified foam and EU Ecolabel approved, low VOC emitting, water-based lacquers. We hold FSC chain of custody certification and can offer over 90% of our products with FSC certification. We aim to use materials with the highest recycled content and those that can be readily recycled.

### PRODUCTION

All upholstery and joinery is manufactured in our Somerset factory using 100% renewable energy. Manufacturing in-house helps keep furniture miles to a minimum. We use a combination of digital technology and hand-crafted techniques to produce durable furniture of the highest quality.

For every ten products we pledge to plant a tree, reforesting once forested land with native, broadleaved species at our factory site in South Somerset and in our local area as part of our ReForest scheme, which will provide biodiverse habitats where wildlife can thrive, and capture carbon for years to come.

### PACKAGING & DISTRIBUTION

We aim to keep our plastic footprint to an absolute minimum across all operations of our business. Our most significant area of impact is packaging. We are phasing out all plastic that cannot be recycled, gradually replacing plastics with bio-based, compostable alternatives. If you would like your order delivered packaging free please talk to our team.

We are yet to transition to an all-electric fleet, until then we aim to minimise delivery miles by careful planning and we are choosing to offset these emissions with reforestation projects that are verified to the PAS 2060 standard.

### LIFE IN USE

We view our products as material banks for the future and would like to see them used over multiple lifetimes before being stripped into their individual materials for recycling. This means that we offer replacement parts wherever possible, including zip off fabric covers which may be bought separately. If you have any damaged part please take a photo of it and contact us to arrange a replacement.

### END OF LIFE & PRODUCER RESPONSIBILITY

In our journey towards a circular economy we have established an in-house remanufacturing centre, ReWork. If you have some of our products that you no longer use, please contact us to arrange collection and we will remanufacture each piece, retaining maximum value from every part.

### COMMUNITY & SOCIETY

We think carefully about whom and where we buy, and have a clear ethical purchasing policy in line with the ETI and UN Global Compact.

We carefully consider how we can benefit our local community and we have close links with local schools and colleges, donating scrap wood, board and fabric to the Design & Technology departments of three local schools and sponsoring Art & Design awards, young enterprise schemes and local arts organisations. We have active apprenticeship schemes, offer work experience placements and paid internships. We are proud to be an Accredited Living Wage Employer.
